Re: Chris Pizzuto

To whom it may concern:

I write to recommend Mr. Chris Pizzuto.

Over the last few years, I have had the pleasure of completing two school library projects for the St. Mary Parish School Board. Chris researched, specified and directed the design of each facility and coordinated the procurement and installation of the furniture and equipment.

He exhibited a great ability to quickly understand the needs and personalities of those involved in the design process and to quickly turn that understanding in to a completed design. As with all projects, ours came with budget constraints that were met with an eye to providing maximum quality at the lower possible cost. I am extremely proud of the Morgan City high School and Morgan City Junior High School library projects that we collaborated on.

Chris was an integral team member and played a critical role in allowing my client and two librarians the opportunity to see all of their dreams come true. If you are looking for someone who understands people, hard work and good planning, you won't find a better person.

Feel free to contact me directly if you would like more detail about the work that we produced.

Very Truly Yours,

Carl P. Blum AIA
Architect
