Dear Chris:

Thank you so much for all you did to help with the creation of the study booths for the Nursing and Allied Health Learning Resources Center. I appreciate your input and creativity when it came to creating a design that fit both my budget and the ideas I had for the space. The booths are constantly occupied as the students have absolutely fallen in love with them. The booths are definitely a successful addition to the library!

You made the whole process extremely easy and it was a pleasure to work with you. I also appreciate your willingness to discuss future dreams and projects for the library space. I look forward to working with you in the future as we continue to update the library space.

Sincerely,

Sybyl Stringer
