To Whom It May Concern:

I am writing today to recommend Chris Pizzuto and the entire Library Furniture Guy team for any projects you may have, large or small. Chris and I have worked together on several projects, most recently putting together a library furniture package for our new construction project.

All details were handled with ease, including installation of all purchases. Chris was communicative and returned calls and emails for my many questions. We love our beautiful new space and are thankful to Chris and his team for their part in the project.

Sincerely,
